

# UNDERMOUNT SINK Installation Hardware

## Undermount Studs

### Undermount sinks under any counter without drilling!

- Use with granite, stone, marble, or any solid surface counter top
- Stud base glues to underside of counter using epoxy or other adhesives you currently use
  - o Clean surface to remove oils and debris
  - o Apply a liberal amount of adhesive
  - o Firmly press stud base into adhesive being sure adhesive oozes through and over holes and base makes contact with counter surface
  - o After adhesive sets, you can easily install the sink using the L-bracket, star washer and wing nut
- Each kit includes 8 sets of hardware (8 stud bases, 8 L-brackets, 8 star washers, 8 wing nuts). Bulk packs can be special ordered
- Stud base available in rectangular (1" x 1 1/2" x 1" stud height) or round (1 1/2" x 1 1/8" stud height)
